3RD INTERNATIONAL CONFERENCE

JISUCONPH 2026

On

Advances in the Management of Metabolic Disorders: Integrating Natural Products and Modern Therapeutics

Jointly Organised by

Department of Pharmaceutical Technology, JIS University, India

&

Universiti Teknologi MARA (UiTM), Malaysia

19TH & 20TH NOVEMBER, 2026

IIT Kharagpur Research Park, New town, Kolkata, West Bengal, India

About the Department

JIS University was established through the JIS University Act, 2014 enacted through the Legislative Act of the Government of West Bengal that came into force in February, 2015. JIS University is the brainchild of the visionaries of JIS Group Educational Initiatives - the largest educational conglomerate of Eastern India with 39 Institutions, 185 programs and 45,000+ students. The University has a mission to be one of the top-class universities in India and a preferred destination for students, research scholars and faculty members. Students aspiring to study in JIS University can be assured of quality education as all courses are duly accredited and affiliated by different regulatory bodies of India like University Grants Commission (UGC), New Delhi, India; All India Council for Technical Education (AICTE), New Delhi; Bar Council of India (BCI), New Delhi, India; Pharmacy Council of India (PCI), New Delhi, India; National Council for Teacher Education (NCTE) and United Nations Academic Impact (UNAI). JIS University is also a member of Association of Indian Universities (AIU) since 2017.

JIS University provides instructions, teaching, training and research in various branches and specialised fields of Science, Engineering & Technology, Pharmacy, Management, Law, Social Sciences and Education. The University provides PhD programmes in various disciplines. It serves as a one-stop undergraduate-to-postgraduate platform for higher education pursuit.

The Department of Pharmaceutical Technology of JIS University is established in 2016 with B.Pharm. course and later other programs such as D. Pharm., M. Pharm. in Pharmaceutics, Pharmaceutical Chemistry, Pharmacology, & Quality Assurance, Bachelor of medical laboratory technology (BMLT), Ph.D. in Pharmacy were introduced. The Department is recently recognized by the National Institutional Ranking Framework (NIRF), Govt. of India in pharmacy category in rank band **100 - 125** for consecutive **years 2023 & 2024** and in **2025 (Rank - 97)** . The department has well equipped ICT-enabled classrooms, well equipped modern laboratories, with the latest different analytical instruments, and highly qualified and dedicated faculty members.

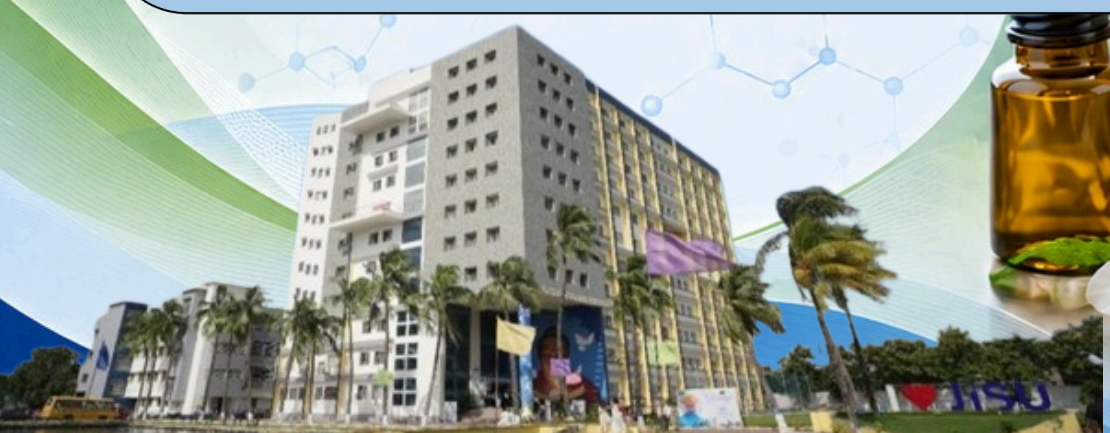

About the Conference

Metabolic disorders such as diabetes, obesity, dyslipidemia, and metabolic syndrome are increasing worldwide and have become major public health concerns. Advances in modern therapeutics, drug delivery systems, and personalized medicine have improved the diagnosis and treatment of these conditions. Natural products are also gaining importance due to their potential antidiabetic, antioxidant, anti-inflammatory, and lipid-lowering activities. The integration of natural products with modern therapeutics may provide safer, more effective, and innovative treatment options. Continued research and technological advancement are essential for developing improved therapies and enhancing the quality of life of patients with metabolic disorders.

Objectives of the Conference

- To disseminate knowledge on recent advances, emerging technologies, and innovative approaches in the management of metabolic disorders, with emphasis on the integration of natural products and modern therapeutic strategies.
- To facilitate interdisciplinary exchange and foster academia–industry collaboration for the development, translation, and application of novel pharmaceutical and biomedical tools and therapeutic approaches for metabolic disorders.
- To explore integrative therapeutic strategies combining Ayurveda, Yoga, Panchkarma and modern medicine for the effective and evidence-based management of metabolic disorders.
- To facilitate knowledge exchange on molecular, genomic, biochemical, and pharmacological aspects underlying metabolic disorders and their therapeutic interventions

BROAD AREA OF INTEREST

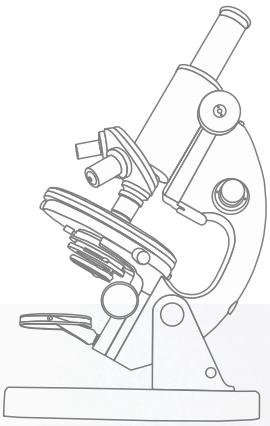

The conference aims to focus onAdvancesin theManagement of Metabolic Disorders: Integrating Natural Products and Modern Therapeutics. The following are the broad interest:

- Ayurvedic management of diabetes, obesity and PCOS
- Herbal medicines & Phytopharmacology
- Nutraceuticals, Functional food and Diet-based therapies
- Yoga, Panchakarma & lifestyle management
- Integrative approaches (Ayurvedic + Modern medicines)
- Molecular, genomic and biochemical aspects
- Innovations in herbal drug delivery systems
- Nanotechnological approaches
- Any other relevant modern research

TARGETED AUDIENCES

The event is open to

- **Academicians**
- **Students**
- **Researchers**
- **Technologists**
- **Healthcare Professionals**
- **Industrialists**
- **Pharmacy Fields**
- **Medical Fields**
- **Health Science Personnel**
- **Applied Science Personnel**

The purpose of the event is to share knowledge and expertise to enhance the pharmaceutical and biomedical research. We are particularly interested in scientific presentations from researchers in both the industry and academic.
